

PPRU-M SBORKA-M ADA RADAR & CONTROL VEHICLE

Sborka serve as a regimental mobile control and reconnaissance post and substitute early served PPRU-1 Ovod-M-SV. Sborka have build-in detection radar-designated for control over combat operations of the tactical air defense formations armed with missile, artillery and portable air defense missile complexes (Tunguska(SA-19), Osa(SA-8), ZSU-23-4 Shilka, Strela-10(SA-13), Igla(SA-16), Tor(SA-15)). Automated operation is possible both on the movie and on permanent positions.
