MESSERSCHMITT BF 109E

INSTRUCTIONS

1. Read assembling instructions carefully before assembling. The drawings will assist you.
2. Do not separate all the parts but only those you need as you go along, according to instructions.
3. Before applying the glue make certain you know how to assemble the part, by first placing it in its place without glue.
4. Apply glue to those areas intended to be glued.
5. Apply glue carefully. Excess glue may damage or soil the small sections of the part.
6. After completing assembly of plane wait a while for the glue to harden. Then apply the insignia.

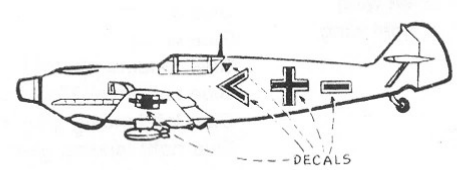

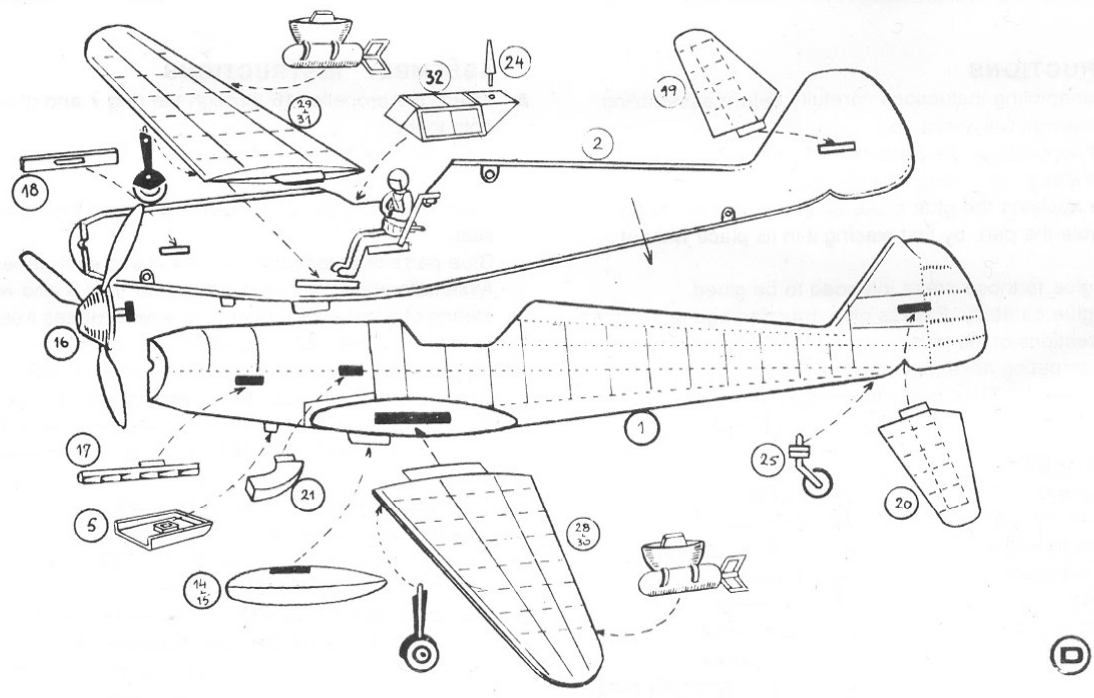

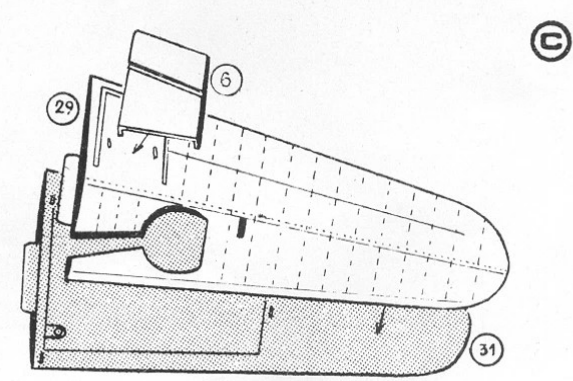

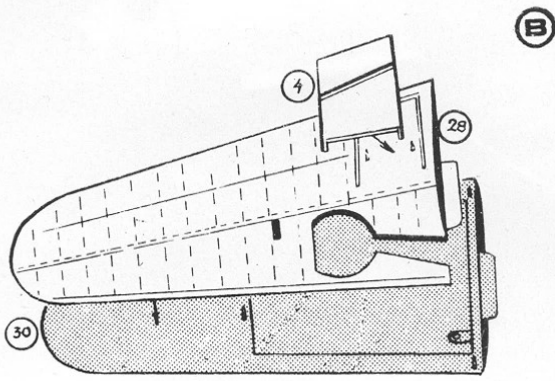

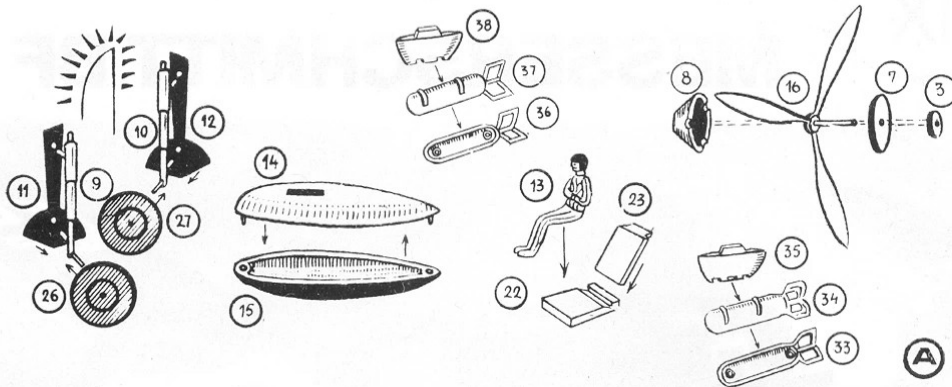

Enjoy !

PARTS LIST

- | | |
|----------------------------------|------------------------------|
| 1. Left fuselage half. | 21. Air filter |
| 2. Right fuselage half. | 22. Pilot seat |
| 3. Propeller axle ring | 23. Pilot seat armour |
| 4. Right wing cooler | 24. Antenna |
| 5. Oil cooler | 25. Tail wheel |
| 6. Left wing cooler | 26. Main wheel |
| 7. Propeller rear ring | 27. Main wheel |
| 8. Spinner | 28. Lower half of left wing |
| 9. Landing gear | 29. Lower half of right wing |
| 10. Landing gear | 30. Upper half of left wing |
| 11. Landing gear door | 31. Upper half of right wing |
| 12. Landing gear door | 32. Cockpit cover |
| 13. Pilot | 33. Half a bomb |
| 14. Detachable tank - lower half | 34. Half a bomb |
| 15. Detachable tank - upper half | 35. Bomb carrier |
| 16. Propeller | 36. Half a bomb |
| 17. Right exhaust | 37. Half a bomb |
| 18. Left exhaust | 38. Bomb carrier |
| 19. Right rudder | |
| 20. Left rudder | |

ASSEMBLY INSTRUCTIONS

- A** Insert the propeller 16 through the ring 7 and glue the spinner 8 onto them.
Glue the ring 3 on the propeller axle 16. Check whether propeller rotates freely on fuselage.
Glue seat parts 22+23 to each other, and then glue pilot 13 to seat.
Glue parts of detachable tank 14+15 to each other.
Assemble wheel 26 on landing gear axle 9 and weld together by means of a hot knife. Make sure wheel rotates freely.
Assemble wheel 27 on landing gear axle 10 and weld together by means of a hot knife. Make sure wheel rotates freely.
Glue landing gear door 11 to landing gear 9 + 26
Glue landing gear door 12 to landing gear 10 + 27
Glue bomb halves 33 +34 to each other and glue bomb carrier onto them.
- B** Glue left wing halves to each other 28 + 30
Glue left wing cooler 4 onto wing
- C** Glue right wing halves to each other 29 + 31
Glue right wing cooler 6 onto wing
- D** Glue pilot seat 13+22+23 into fuselage half 2
Place propeller 3+16 between fuselage halves and glue halves 1+2 together, making sure the propeller rotates freely.
Glue exhausts 17 + 18 to fuselage sides
Glue oil filter 3 to fuselage underside
Glue air filter 21 to fuselage side
Glue wings to fuselage sides
Glue rudders 19+20 to fuselage sides
Glue tail wheel 25 to fuselage
Glue left landing gear 9+11+26 to left wing
Glue right landing gear 10+12+27 to right wing
Glue detachable fuel tank 14+15 to fuselage
Glue bombs to underside of wings as shown in the drawing
Glue cockpit cover 32 to fuselage
Glue antenna onto cockpit cover
- E** Stick on emblems as shown in drawing
