

# HKP 4A, B, C & D Vertol

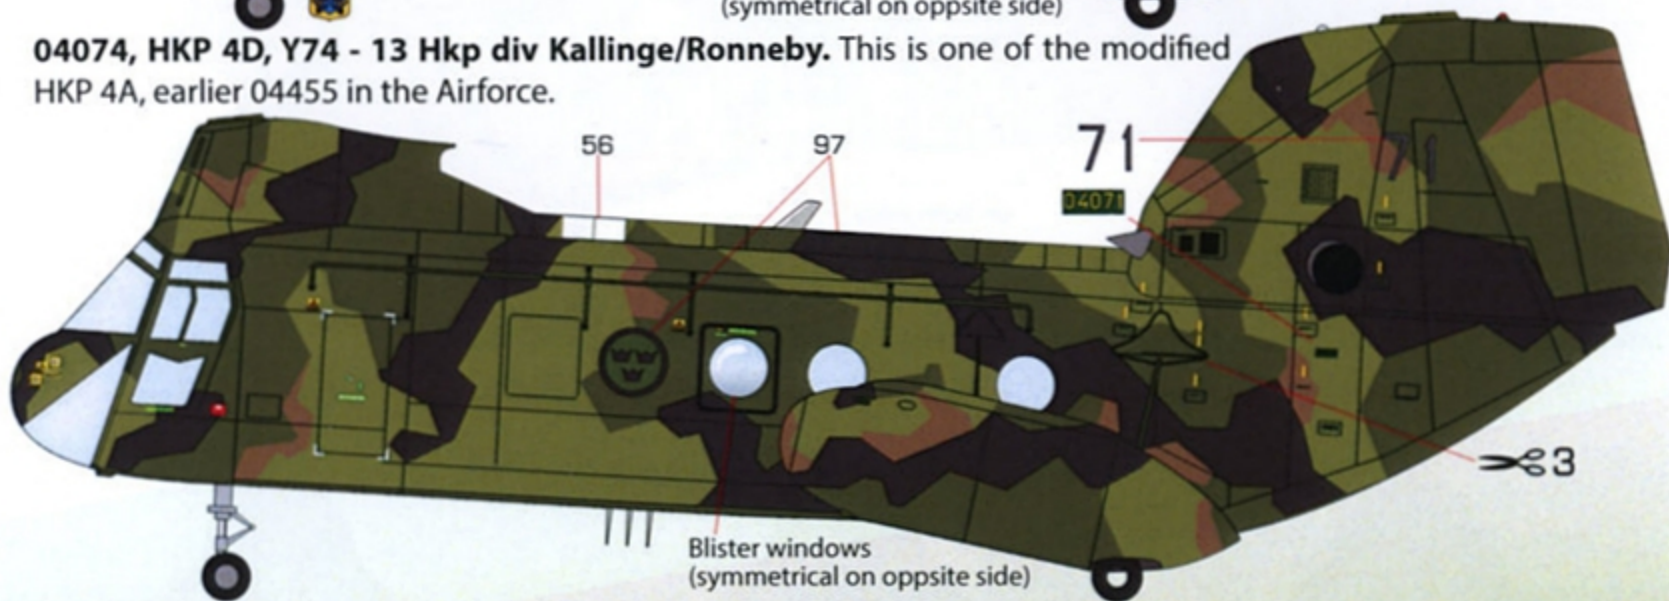

**04455, HKP 4A, O95 - F15 Söderhamn.** Modern type of stencils according to "b" on decal sheet.

Airframe painted olive green 325.

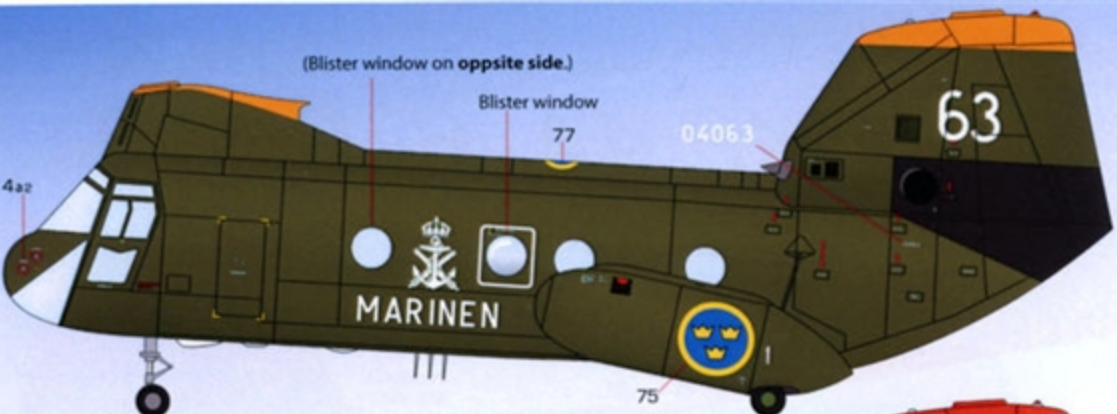

**04074, HKP 4D, Y74 - 13 Hkp div Kallinge/Ronneby.** This is one of the modified HKP 4A, earlier 04455 in the Airforce.

**04071, HKP 4C, Y71 - 2 Hkp div Kallinge/Ronneby 2008.** Together with Y65, Y68 and Y70 this helicopter was modified with machine guns m/58 (and mounts) in the aft and the forward left & right positions to be a part of foregin peacekeeping operation "Nordic Battlegroup '08". Note that the forward left (emergency) panel around the window was removed and covered with a panel on these a/c when the gun was detached.

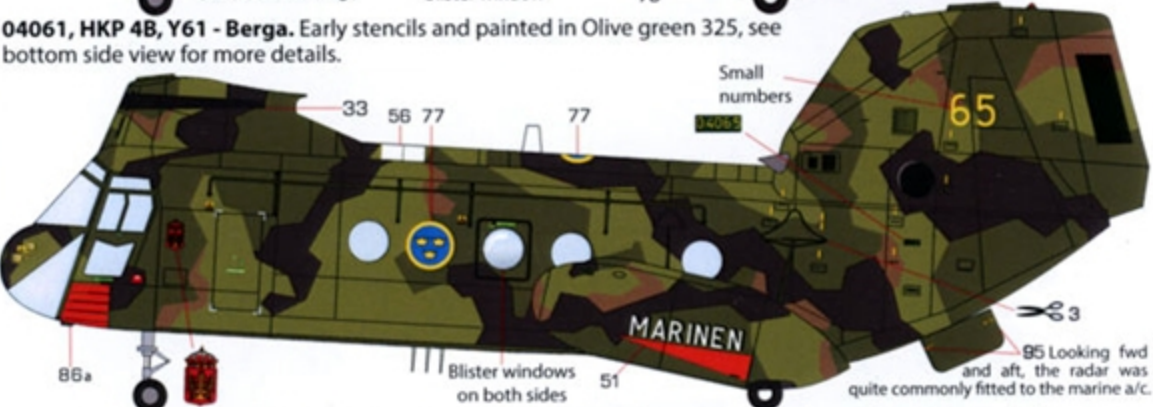

(Blister window on opposite side.)

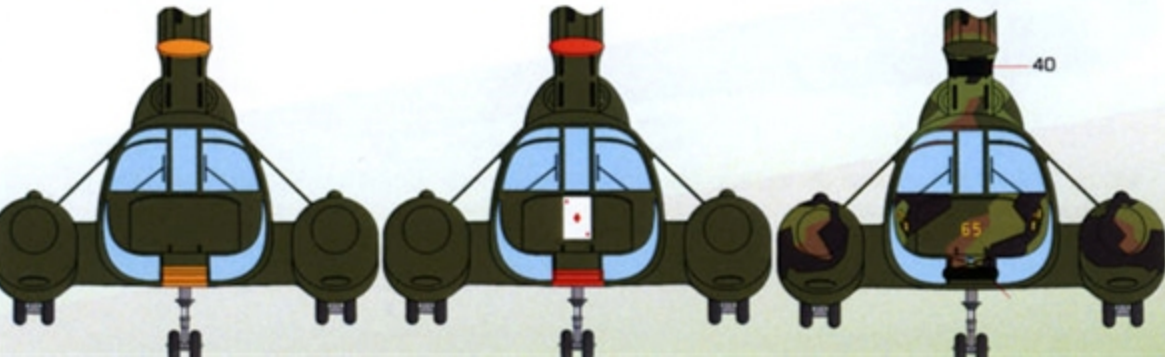

**04063, HKP 4B, Y63 - Berga.** Early stencils according to "a" on decal sheet and painted in Olive green 325. Note that later HKP 4C has another spacing between the letters in "MARINEN".

**04061, HKP 4B, Y61 - Berga.** Early stencils and painted in Olive green 325, see bottom side view for more details.

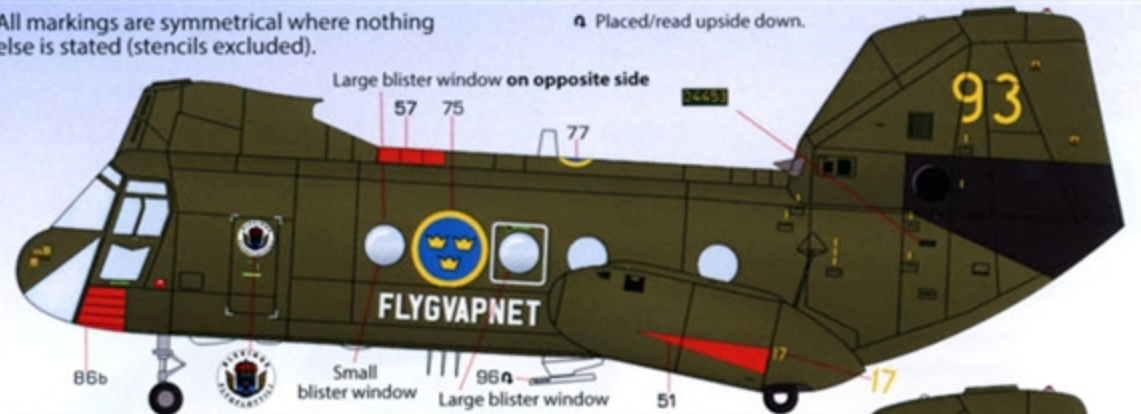

**04065, HKP 4C, Y65 - 11 Hkp div Berga.** This is the standard submarine hunter livery from 1980 to the beginning of 2000. This was one of the first rescue helicopters at the Estonia accident site on the 28th september 1994. It was later nicknamed "Gordon". Late type of stenciling and camouflage painted rotor blades.

All markings are symmetrical where nothing else is stated (stencils excluded).

Placed/read upside down.

**04453, HKP 4A, Q93 - F17 Kallinge/Ronneby.** Camouflage painted rotor blades and use the later stenciling ("b").

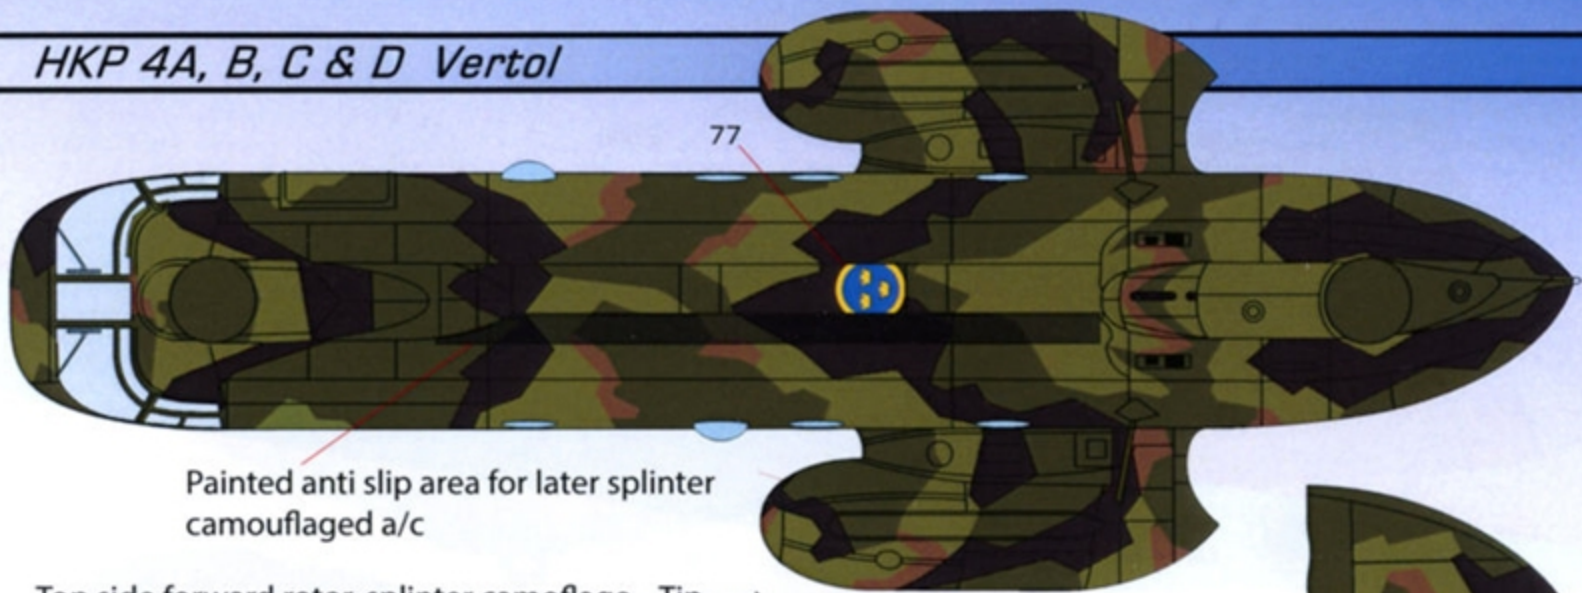

**04451, HKP 4A, U91 - F21 Kallax/Luleå.** Painted in Olive green 325, camouflage painted rotor blades and later stenciling ("b").

**04453, HKP 4D, Q93 - F17 Kallinge/Ronneby.** In order to fill the gap before the transition to HKP 10 Puma, two D-models were used at F17 (the other one was Q98) before they were transferred to the Marine in 1991. D was an upgrade to the old airframes with short empennage to meet the HKP4C std. The D modification included stronger engines, light weight rotor blades and autopilot. Camouflage painted rotor blades and later stenciling ("b").
