For stencils and insignias for versions 1, 2 and 3, must use those from kit's decal. Or for more complete set, look for the FCM decal 32033.

VERY IMPORTANT:
For a correct representation of the 300 gallon fuel tank, you need to replace the tank that comes with the Trumpeter kit with an aftermarket one, or use the tanks that come with the A-4 Skyhawk, A-6 Intruder or A-1 Skyraider kits. The tanks in these kits are correct.
