We recommend the following paint lines:

Model Master Enamels
Vallejo Model Color and Model Air Acrylics
Gunze Sangyo Mr. Color

Decal Instructions

Our decals are proudly printed by Cartograf, S.A. and respond well to most setting solutions. We recommend using Microscale Microsol and Microset with our decals to achieve a "painted-on" look.

Before applying decals, give your model a glossy surface, to ensure proper adhesion and eliminate "silvering." We recommend Pledge Multi-Surface Finish (a.k.a. "Future Floor Wax") or Testors Model Master Gloss Laquer for achieving a good glossy finish.

Seal your decals in with another coat of gloss finish before weathering your model.

Special Thanks To

Jack Morris, Vince Maddux, Mike Hazlewood, Brian Marbrey and to our Customers
